I would like to thank you very much for helping us. I appreciate the time that you have taken. I realize that these questions may have been difficult for you to answer, but it is only by hearing from women themselves that we can really understand how to develop programs to help. From what you have told me, I can tell that you have had some very difficult times in your life. No one has the right to treat someone else that way. From what you have told me I can see that you are strong and have survived through some difficult circumstances. Here is a small card with a phone number for an organization that provides support, legal advice and counseling services to women. If you would like to speak to them today, I can connect you through the tablet. Their services are free, and they will keep anything that you say private. If you would like to take their number to possibly call at a later time, please take this card. It is small so you can hide it if needed to avoid others seeing it and becoming angry. Thank you again for your time and for sharing your experiences. **(closev)**
